OUR OWN BRANDS

AUTHORISED CHANNEL PARTNER

SOURCED & SUPPLIED
ORDER-TO-ORDER SUPPLY
AGAINST CUSTOMER
REQUIREMENT.

A B2B supply business built on three clear capabilities

Khalifa Trade & Impex is an Ahmedabad-based business engaged in manufacturing, authorised channel partnerships, sourcing and supply of industrial, agricultural, plumbing and infrastructure products.

01 | Own Manufacturing

HDPE laminated tarpaulin under BADSHAH TARPAULIN, and agro shade net under SKYGUARD™. Quality, grade, GSM and size options offered against requirement.

02 | Authorised Partnerships

Authorised Channel Partner for EPP Composites, CORSA PTMT Bath Fittings and Teraflo HDPE Pipes & Fittings — partnerships, never distributorship claims.

03 | Sourcing & Supply

Products sourced from established manufacturers, dealers, distributors and suppliers on an order-to-order basis.

04 | Our Approach

Accurate positioning, an organised catalogue and quick responses. Requirements quoted on enquiry, product data confirmed before publication.

Agriculture

Industrial

Construction & Infrastructure

Plumbing

Water Management

Electrical Infrastructure

Horticulture

Commercial & Project Supply

Technical specifications are shared on enquiry and only where verified.

Our Own Manufacturing

Two product lines are manufactured by Khalifa Trade & Impex under our own brands. Everything else in this catalogue is supplied under an authorised partnership or sourced and supplied — and is labelled accordingly.

OWN BRAND

HDPE laminated tarpaulin manufactured for covering, protection and site use. Available from 100 GSM to 350 GSM, in standard market sizes and customised sizes on an order-to-supply basis.

OWN BRAND

HDPE agro shade net manufactured in 9 Gauge and 12 Gauge, including 75% and 90% shade options, with Mono, Black and Yellow border options. Standard and customised sizes prepared as required.

Specifications, GSM values and sizes are confirmed on enquiry — only verified values are published.

Authorised Partnerships

Brands we are formally authorised to represent. These partnerships are distinct from products we source and supply — authorisation scope and territory are stated exactly as they stand.

EPP Composites Pvt. Ltd.

EPP Composites Pvt. Ltd.

AUTHORISED CHANNEL PARTNER
TERRITORY — Ahmedabad District & Surrounding Areas

Selected FRP, GFRP and SMC composite solutions for construction, infrastructure, electrical and industrial applications.

CORSA PTMT Bath Fittings

AUTHORISED CHANNEL PARTNER
TERRITORY — Ahmedabad

PTMT taps, cocks, bathroom fittings, showers, accessories and allied products across multiple designs, finishes and configurations.

Teraflo HDPE Pipes & Fittings

AUTHORISED CHANNEL PARTNER
TERRITORY — Ahmedabad District

HDPE Pipes, Fittings and DWC Pipes for bulk orders, government tenders and large infrastructure projects.

Sourced & supplied products

Beyond our own manufacturing and the partnerships above, we source and supply from established manufacturers, dealers, distributors and suppliers according to customer requirement. These are never presented as manufactured by, owned by, or authorised to Khalifa Trade & Impex.

at Ahmedabad

SMC Junction Boxes

SMC junction boxes supplied for electrical distribution, protection and infrastructure applications, suitable for project-based and bulk requirements, with customized configuration available as required.

SMC Distribution Boxes

SMC distribution boxes designed for safe and reliable power distribution in residential, commercial and industrial applications. Weather resistant, durable and maintenance-free, suitable for large projects and customized requirements.

SMC Meter Boxes

SMC meter boxes for single and three-phase energy meters, offering excellent protection, durability and weather resistance. Ideal for residential, commercial and utility applications, with various configurations available as per project needs.

Other SMC Enclosures

Wide range of SMC enclosures for diverse electrical and infrastructure applications including control panels, utility enclosures, telecom enclosures and custom-built solutions. Designed for high strength, superior insulation and long service life.

Butterfly Valves

High performance butterfly valves for reliable on/off and throttling applications in industrial, chemical and water treatment systems.

Flow Control Valves

Precision flow control valves designed for accurate regulation of fluids in various industrial processes, ensuring efficiency and operational safety.

Application Specific Valves

Specialized valves for critical applications such as chemical handling, water treatment, pharmaceutical, food & beverage and other process industries.

Other Plastic Valves

Wide range of plastic valves including ball valves, gate valves, diaphragm valves, foot valves and non-return valves for diverse industrial needs.

End Products

Complete range of end products and accessories including strainers, non-return valves, union fittings, flanges and other industrial valve components.

HDPE Pipes

High quality HDPE pipes manufactured for a wide range of applications including water supply, sewage, industrial and infrastructure projects. Known for excellent strength, flexibility, corrosion resistance and long service life.

HDPE Fittings

Precision engineered HDPE fittings for secure and reliable jointing. Designed for high performance, durability and leak-proof connections in various industrial, municipal and infrastructure applications.

Couplers

HDPE couplers for strong and permanent pipe connections. Engineered for excellent grip, reliability and long-term performance even in demanding environments.

Elbows

HDPE elbows available in various angles (45° & 90°) for smooth directional change in piping systems. Designed for high strength, impact resistance and leak-free performance.

Tees

HDPE tees for creating reliable branch connections in piping networks. Manufactured for high pressure applications with excellent strength, durability and dimensional accuracy.

Reducers

HDPE reducers are designed for smooth transition between different pipe diameters, ensuring efficient flow management. Available in various sizes to meet diverse application requirements with high strength and durability.

End Caps

HDPE end caps provide a reliable and durable solution for closing pipe ends. Designed to withstand high pressure and harsh environments, ensuring leak-proof performance and long service life.

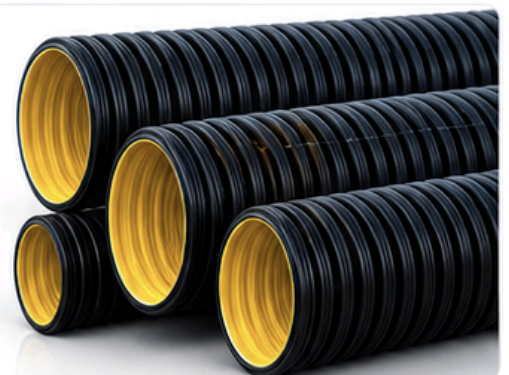

Other HDPE Fittings

A wide range of HDPE fittings including bends, adaptors, flange adaptors, stubs, stub ends and custom solutions for various industrial, municipal and infrastructure applications. Engineered for strength, reliability and easy installation.

DWC Pipes

High performance HDPE Double Wall Corrugated (DWC) pipes for underground drainage and sewerage applications. Lightweight yet strong, with excellent ring stiffness, high impact resistance and long-lasting durability.

Other Industrial Plastic Products

Customised & Project-Based Plastic Solutions

Customised and project-based plastic solutions for our existing customers. For customers who regularly purchase our main products, we can also support customised plastic product requirements based on their specific demand, application or project.

If a customer has a customised requirement or an ongoing project, we can coordinate and arrange the required product according to their specifications and instructions.

Depending on the requirement, we can arrange product development, manufacturing through suitable manufacturing partners, customisation and final supply as per the customer's specified application, dimensions, design and other requirements.

This service is intended for existing customers looking for specific, customised or project-based plastic products that are not part of our standard product range.
